

Camp Creativity includes a variety of age-appropriate thematic classes where your child will find new avenues of self-expression and creative potential.

With our new Preschool Studio offerings, three and four years olds may enroll in the morning session and experience art in a developmentally appropriate and engaging manner. Within each weeklong segment of Camp Creativity, campers in Studios A and B may enroll in either the morning or afternoon session, or the full-day program. The optional Pre-Camp and Post-Camp periods offer creative games and outdoor activities led by trained counselors. Full-day campers have a supervised lunch period (lunch is not provided). The Hill Center offers fully-equipped classrooms, an outdoor play area, and convenient access by car and Metro.
